

Normfinish Blast cabinet DP Pressure Blasting

IN-HOUSE PRODUCTION

Normfinish blast cabinets are developed and manufactured by Leering Hengelo for many decades.

Normfinish blast cabinets are intended for frequent blasters with high demands on the blasting results, clear view, user convenience, safety and the environment. All components are assembled, according to ISO-certification, to create a compact turn-key unit.

Blast cabinet DP

PRESSURE BLASTING

Normfinish blast cabinets guarantee the following:

- Efficient powerful blasting
- Blasting process free of interruption
- Continuous clear view due to optimal circulation of air
- Cabinet without foundations, compact construction
- Efficient cleaning of abrasives by cyclone
- Optimal blast media dosage with dosage valve

Easy to replace splash glass

Logo-control with automatic fan stop

Filter regulator unit

Dosage valve

PRESSURE BLASTING WORKING PRINCIPLE

TECHNICAL SPECIFICATIONS

	DP 12	DP 14	DP 17	DP 22
Useful blasting space (W x D x H)	1170 x 940 x 885 mm	1370 x 1040 x 940 mm	1700 x 1400 x 1090 mm	2200 x 1400 x 1090 mm
Outer dimensions (W x D x H)¹	1285 x 1520 x 2106 mm	1485 x 1620 x 2191 mm	1854 x 2073 x 2395 mm	2350 x 2073 x 2395 mm
Working Height	800 mm	800 mm	800 mm	800 mm
Illumination	1 x 50 W LED	1 x 50 W LED	2 x 50 W LED	2 x 50 W LED
Weight	ca. 550 kg	ca. 705 kg	ca. 1180 kg	ca. 1430 kg
Door opening	835x725 mm	935x785 mm	1265 x 925 mm	1265 x 925 mm
Maximum load	max. 500 kg	max. 500 kg	max. 1000 kg	max. 1000 kg
Filter cartridge	2 x 4 m ²	3 x 4 m ²	2 x 21 m ²	3 x 21 m ²
Power supply	3x400V + N + Aarde / 50Hz / 1,2kW	3x400V + N + Aarde / 50Hz / 1,6kW	3x400V + N + Aarde / 50Hz / 3,3kW	3x400V + N + Aarde / 50Hz / 3,3kW
Air consumption²	3000 liter / min at 4 bar	3000 liter / min at 4 bar	3000 liter / min at 4 bar	3000 liter / min at 4 bar

1) Motor included

2) Depending on nozzle diameter

ADDITIONAL OPTIONS FOR DP MODELS

- Stationary rotary table
- Complete rail system, including mobile rotary table
- Fixed blast gun holder [adjustable]
- Cyclone with removable lid and Linatex protective lining
- Throughput tunnel, various models available
- Protective lining front
- Additional programming Logo-control with underpressure warning, dust bin full, service indicator light, filter measurements
- Options such as roller conveyors, on request

Complete rail system, including mobile rotary table

Blast gun holder

Throughput tunnel

HEPA filter

Filling hopper cyclone

ENGINEERING

The automation of production processes continues and equipment is becoming increasingly product-specific. As a result, traditional equipment is often no longer up to the task. Leering Hengelo has its own engineering department, which is why our company can respond to the many questions raised in this area.

We can involve our engineering department in the construction of your equipment. We are able to translate customer- and product-specific requirements into customised equipment perfectly suited to your application(s). For more information on our technical support or expert advice, please do not hesitate to contact our engineering department.

SERVICE

In addition to producing new machinery and equipment, Leering Hengelo also places great importance on professional aftercare and service. With this in mind, we have our own service department with skilled technicians. They are not only experts when it comes to our own equipment, but also have all the specialist knowledge to service similar machines from other manufacturers.

Apart from blast cabinets we also supply and build blastrooms. We also are supplier for high quality [abrasives](#).
