

# ATIS ACER 55

Pneumatic manipulator for balanced lifting of loads up to 55 kg, distinguished by its rapid movement thanks to its double-rope vertical travel. Lightweight and compact, it solves a wide range of handling problems, especially in confined workspaces. It adapts to specific handling requirements thanks to the application of specific gripping equipment.

## BALANCE CYLINDERS

High-tech ATIS systems enable maximum smoothness thanks to the use of special technical features.

## TERMINAL BALANCE

For balanced load distribution

## SELF-SUPPORTING BASE

Support designed to maintain the stability of an object without the need for additional external fixings or anchors.

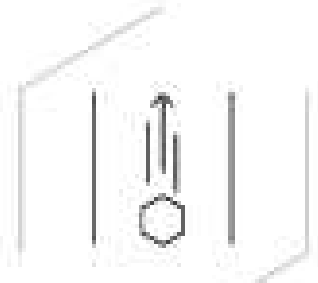

**55 KG**

**EXTIMATED CAPACITY  
AT THE FLANGE**

**4,0 M  
RADIUS**

**1,6 M  
VERTICAL  
STROKE**

**LOADS AT CENTRE  
OF GRAVITY**

## EXECUTIONS:

COLUMN ON SELF-SUPPORTING BASEPLATE

FIXED FLOOR COLUMN

OVERHEAD FIXED

OVERHEAD SLIDING
